

## **Citation Guideline for FRSC-1010H**

As stated in your syllabus citations for all assignments (Lab questions, Emerging forensic techniques: Proposal and Paper) are to be in the JFS (Journal of Forensic Science format). Marks will be DEDUCTED if this format is not followed!

A great way to determine how to cite properly following this format is to look at a Journal article published in this journal to how they cite their references. Here is the link to the journal homepage, where you can browse through the articles published in JFS:

[http://onlinelibrary.wiley.com/journal/10.1111/\(ISSN\)1556-4029](http://onlinelibrary.wiley.com/journal/10.1111/(ISSN)1556-4029)

Number references consecutively in the order in which they are first mentioned in the text (i.e. [1], [2], etc.). Within the reference list, number the references 1., 2., 3., etc.

We have also provided you with a detailed description of how various sources should be referenced following the JFS format.
